A 文章を聞いて、空所にあてはまる語を書き取りなさい。

The orangutan is the only big ape in Asia. “Orangutan” means “man of the forest.” Today orangutans are in danger. They are losing their homes. People are cutting down the forests to sell wood or to make farms. Many forests for orangutans are disappearing.

We should think about another thing. ① Young orangutans in the forests are caught and sold. They are grown as pets (ア) some people in cities. But several years later, they become difficult animals for these people. They get very big and strong. Then the people can't take care of them, and they are dumped.

Those orangutans are (イ) to rehabilitation centers. There, they have to learn some things before they go back to the forests again. They must know the way of climbing trees and getting food. If they can't learn ② these things, they can't live in the forests.

We should save the orangutans's home and life in the forests.
